## PUDDLE FLANGE WALL SLEEVES FOR PIPE THROUGH CONCRETE WALL SEALING

### Stainless steel wall sleeves puddle flanges.

Assembles include modular seal links, with EDPM elastomer, stainless steel hardware

### Read More

#### APPLICATIONS

Pipes through concrete walls and floors  
Split sleeves for existing pipe  
Oil and Gas Pipelines with oil resistant NBR seals.  
Sewer Line manhole sealing  
Waste water Treatment plants

Stainless steel pipe sleeves with puddle flange wall collars, modular seal links.  
USA, Canada Suppliers.

#### ADVANTAGES

Puddle Flange part of wall sleeve assembly.  
Split wall sleeve assembly for existing pipe.  
Flush with wall forms.  
Pipe centering modular seal links.  
Sealing if pipe not centered using off center disk seals.  
Excellent corrosion resistance.  
Resistance to chemicals.  
High mechanical strength.  
Can accommodate all pipe sizes, American and International.

Long length pipe sleeves are available with multiple puddle flanges.

Pipe penetrations on an angle, through walls with incline angle of penetration.
