External Wall Pipe Seal

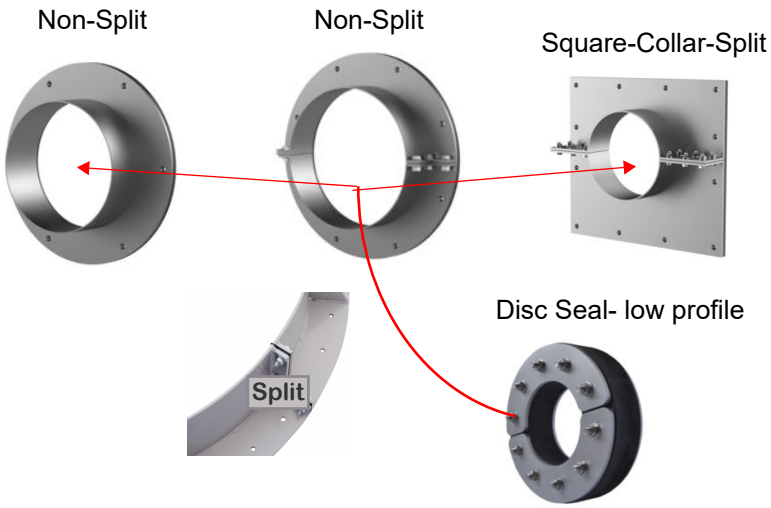
WA-GPT sleeves - split for existing pipe or non split for new pipe

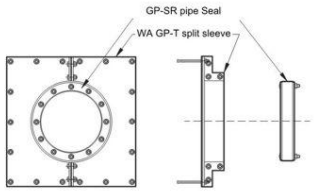
Seal existing pipes from outside the wall.

WA-GPT split wall sleeves mounted on the outside of a wall to make a watertight connection.

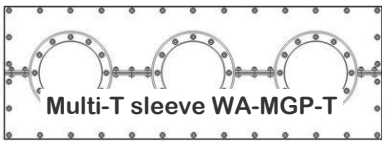
Applications:

Waterproof seal assembly for pipes not centered in the opening. Original link seal is leaking. A core hole is too small. Split sleeves WA-GPT units wrap around an existing pipe and split disc seal or modular seal links seal the annular space.





Multi-pipe penetrations



The units come with a collar gasket for sealing against the wall and joint gasket seals. Anchor bolts and joint bolts are provided.

WA-GPT external wall sealing units are also available with multi-"T" for pipes that penetrate a wall in close proximity to each other. Multi -T units allow narrow spacing between pipes. *The back wall* collars may be flat or curved. The units may be used on concrete or metal walls.

External wall mount sleeves and seals offer waterproofing for pipe penetrations through foundation walls or floor slabs.

Submit your inquiry to Westatlantic Tel # 902 455 4455.

WA-GPT assembly seals ship with all required material ready to install
Bolts, for flange closing, flange gaskets, anchor bolts, seals.
