Modular seal

10 x GKD 500

- With integrated installation control - no torque control key required
- No retightening required
- Nuts moulded into the pressure plate, therefore no loose parts

For sealing of newly to install pipes or already installed pipes inside core drilled holes or wall sleeves. The modular structure allows installation on all kind of pipes and diameter combinations.

FACTS

Application range:
- Standing seepage water, Pressurised water, Waterproof concrete stress class 1

Scope of delivery:
- Lubricating stick

Advantages:
- Optimized bolt geometry
- Large pipe applications
- Available from stock
- Suitable for retrofit sealing
Material:
- Rubber: EPDM or NBR
- Bolts and nuts: Stainless steel V4A (AISI 316 L)

Tightness:
- Gas- and watertight

TECHNICAL DATA

min. annular space (mm): 62
max. annular space (mm): 71,5
Min. carrier pipe $\Phi_1$ (mm): 193,7
max. carrier pipe $\Phi_2$ (mm): 1220
Required wall thickness (mm): 165
number of segments: 10
