**Field installers see the correct torque indications on each bolt. No over torque or under torque.
Bolt heads are prevented from backing off with lock pressure plates.**

**No expensive returns for re-tightening
No Leaks - all Links can be visually checked for correct Torque
No Special tools required**

The first modular seal with integrated installation control

For a maximum installation security

Yellow. Safe. Installed.
GKD – convincing at first sight

Modular seal GKD

The modular seal with integrated installation control

Article code:
GKD xxx

Features and technical data:

- integrated installation control – no torque control key required
- no retightening required
- nuts moulded in pressure plate, therefore no loose parts
- high quality rubber in EPDM or NBR
- all metal parts made of high quality stainless steel V4A (AISI 316L)
- optimized geometry
- tightness up to 5 bar approved by Lloyds register
- made in Germany

The modular seal GKD from Hauff-Technik is the ideal sealing for pipes in core drilled holes or wall sleeves. The integrated installation control is giving a high installation security. Thanks to the modular structure the GKD is suitable for all kind of pipes and diameter combinations.

Annular space (mm)		Carrier pipe Ø (mm)		Required wall thickness (mm)	Article code

77	84	244,5	2000	165	**z x GKD 650**

z = number of segments

Yellow. Safe. Installed.

Have the installation procedure in view at all time with integrated inspection window

GKD – installation security inclusive

untightened... ...tightened

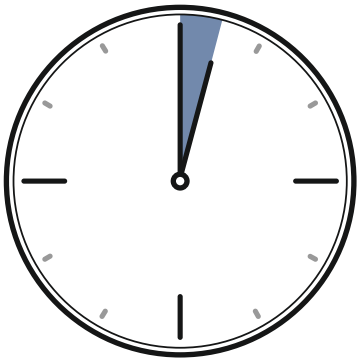
GKD – simply quicker installed

optimized bolt geometry | GKD special rubber | Hauff lubricant | no retightening required

The combination of a optimized bolt geometry, a special rubber and the Hauff lubricant ensures that the modular seal is installed after a one-time tightening. Your advantage – no waiting time and no time consuming repeated retightening

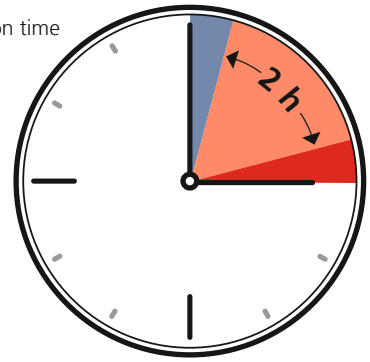
NEW:

1. installation time



UNTIL NOW:

1. installation time
2. waiting time
3. additional installation time



Modular seal GKD

The visual installation control

All yellow.
Done!

All yellow?
Installation mistake immediately noticed!

All yellow.
Installation time saved!
