Modular seal

For watertight sealing of large diameter pipes

• With integrated installation control - no torque control key required

- No retightening required
- Nuts moulded into the pressure plate, therefore no loose parts

FACTS

Application range:

• Standing seepage water, Pressurised water, Waterproof concrete stress class 1

Scope of delivery:

• Lubricating stick

Advantages:

- Optimized bolt geometry
- Large pipe applications
- Available from stock
- Suitable for retrofit sealing

Material:

- Rubber: EPDM or NBR
- Bolts and nuts: Stainless steel V4A (AISI 316 L)

Tightness:

• Gas- and watertight

TECHNICAL DATA

WA - Modular watertight seals up to 72 psi pressing water sealing. EDPM or NBR sealing element with 316L stainless nuts and bolts are standard.

PICTURES FROM PRACTICAL APPLICATION

Westatlantic will provide you with direct, rapid support for technical questions and will be glad to assist you in professional insertion and sealing of conduit, cables and pipes.
