WALL SLEEVES - PUDDLE FLANGES - Modular Seals German engineered - Euro - Seals

Wall sleeve puddle flanges. 1 inch to 120 inch diameters.
Modular seals with stainless steel bolting - pipe through wall sealing.

APPLICATIONS

Pipes through concrete walls and floors, 6 inch to 60 inch
Split sleeves for existing pipe
Sewer Line manhole sealing
Treatment plant pipe sealing

Pipe sleeves with puddle flange wall collars with 72 psi water head modular, leak free solutions.

ADVANTAGES

Puddle Flange form part of sleeve assembly
Split assembly for existing pipe with bolt or weld up closures
No special tools required
Flush with wall forms
Easy pipe centering where Modular seals are installed
Excellent corrosion resistance
Resistance to chemicals
High mechanical strength
Can accommodate all all American and International Pipe sizes.
